ATHENAEUM
PREFACE.

sample for
55-22-1

Our annual visit to the dwellings and places of business of the citizens of Boston has again been made, and the results are contained in the following pages. Our grateful acknowledgments are due to the public for their continued coöperation in the work. The map we had in view last year has been deferred,—owing to the new division of Wards, which when completed will cause new boundary lines to be traced. A strong probability exists that a new and much improved map, made from recent surveys, will soon appear under the city auspices.

We shall continue to make all possible improvement in future numbers.

THE CENSUS OF BOSTON.

Was taken in the months of May and June, 1850, by Mr. GEORGE ADAMS, of the Boston Directory. The returns from the central wards of the city plainly indicate the great inroads made by the rapidly increasing business upon the locations formerly occupied by dwelling houses. The substitution of stores and ware-houses for dwellings, is best shown by the returns from Ward Seven and Ward Two. Ward Four, in the city proper, has also undergone great changes from the same cause.

The number of foreigners residing in Boston, may surprise those whose attention has not been directed to that subject, but it has long been evident that they constituted a large class of our population. Particular attention was given to this subject in the recent enumeration, and it will be seen that the foreign element in our community is quite large. But it should be stated that this return of the foreign population includes many children born in Boston of foreign parents.

Our city has suffered a great loss in its population, by the removal of a large number of our citizens to the suburban towns. The facilities afforded by the various railroads which run in all directions, for residing in the towns situated within twenty-five miles from the city, have induced many thousands of our enterprising business men to reside with their families in the country, so that the returns of our native population, and the increase there indicated, forms no criterion whatever of the business growth and mercantile prosperity of this city. These can best be known by the rapidly increasing numbers of stores and ware-houses. Within the last ten years, whole streets and neighborhoods in various sections of the city, have changed, so that the *population* in the locality has entirely disappeared, while blocks and ranges of stores have risen upon the spot, to meet the increasing demands of our business men.

The earliest enumeration of the inhabitants of Boston, now known, was made in 1722. In that census it was found that 4,549 persons resided "North of Mill Creek," now Blackstone Street.

On the 2d of June, 1753, Gov. Bernard presented the subject of taking a census of the colony of Massachusetts Bay, which was acted upon February 2nd, 1764. This census was not completed, however, till May, 1765. In that enumeration, Boston was reported to contain 15,520 inhabitants.

DIVISION OF WARDS.

The Committee to whom was referred the subject of a new division of the Wards of the City, reported June 20, a plan made in accordance with the provisions of the second section of the city charter, as amended by the recent action of the Legislature, and accepted by the City Council, whereby the Wards were hereafter to be divided according to the number of *legal voters*, instead of the former basis of *population*. The Committee found it necessary to obtain an accurate enumeration of the legal voters in the City, and also the numbers residing in each section and subdivision of the streets and avenues thereof. The whole number of legal voters in the city was found to be 17,786, of which number 1482 were in South Boston, and 1380 in East Boston and the Islands in the harbor, leaving the total number in the city proper to be 14,924. The Committee voted that East Boston, with the islands in the harbor should be a separate ward, and should be numbered Ward Two; and that South Boston should retain its present name and boundaries. As the city proper was to be divided into ten wards, and the number of voters therein was 14,924, it will be readily perceived that each ward should contain as near 1492 voters as was possible.

According to the division adopted, the various Wards will contain the following number of voters, viz.

Ward One,	1511	Ward Eight,	1546
Ward Two, (East Boston and Islands,) ..	1380	Ward Nine,	1458
Ward Three,	1487	Ward Ten,	1427
Ward Four,	1552	Ward Eleven,	1465
Ward Five,	1506	Ward Twelve, (South Boston,)	1482
Ward Six,	1470		
Ward Seven,	1502		
		Total in the whole City,	17,786

CITY RECORD.

A striking feature in the streets of Boston is their great number, but generally they are very short. This is bewildering to the stranger, and renders the object of his search rather difficult to reach. For the purpose of making the location of the streets, lanes, and avenues more plain to those who are not familiar with them, we have carefully ascertained the number at which each begins and terminates, as will be observed upon reference to the long list on the following pages. For example, Washington and Tremont streets run nearly parallel with each other, and numerous streets run from one to the other. Giving the number on Washington street from which they lead, and the number on Tremont street at which they terminate, accomplishes all for the public information which can be done by any other mode.

STREET DIRECTORY.

Were our streets like those of New York and Philadelphia, generally of great length, and crossing each other at right angles many times, a street directory might be of value. In the last Boston Directory, we gave a specimen of a Street Directory, but the real information it contained was found in the List of Streets. We remarked last year, "if this Street Directory is found convenient, we shall extend it another year," at the same time observing, such a directory "would be of little or no utility, the streets of Boston being so short and numerous." To show the comparative number of streets in four large cities, we give the following:

The number of streets, courts, places, &c., in

Boston,	823	Philadelphia,	1917
New York,	372	Baltimore,	624

In New York a Street Directory is almost indispensable. But owing to the great inequality of numbers, and many other circumstances, it has been deemed advisable to discontinue the Street Directory, as published last year, at least until a reform is made in the numbering of the streets.

RE-NUMBERING OF STREETS.

During the last year several of the streets have been re-numbered, and the City design to continue this work, as far as practicable, the present year. This year we give some of the streets which have been re-numbered, showing the *old* and *new* numbers, as will be seen by consulting the Index. This enterprise is one of great importance, and during another season we hope to be able to carry it out still further.

THE STREET DIRECTORY, (*See Index,*)

With the names of residents and occupants on each side of the street is, in fact, a Street Directory of some use. We hope to continue this new feature another year, with additions.

The Harbor of Boston accommodates an immense shipping, and upon her wharves are annually landed millions of dollars' worth of merchandise from every clime. The number of wharves enumerated is 118, yet there are nearly 100 docks and small wharves not mentioned. It is in contemplation to build several wharves, and in a few years we shall see as great improvement in the commercial department as is now observed in the erection of mercantile buildings. We here give the *length* of some of the principal wharves: — *India Wharf*, 980 feet; *Central Wharf*, 1,379 feet; *Long Wharf*, 1,800 feet; *Commercial Wharf*, 1,100 feet; *Union Wharf*, 640 feet. Lewis, and Eastern Railroad wharves are also of large dimensions, and are of comparatively recent construction.

The city proper possesses superior advantages for commercial enterprise. Its rivals, East and South Boston, are worthy of their progenitor. With the great accommodations afforded at East Boston for shipbuilding and repairing, the wharves of the Grand Junction Railroad Company, and the extensive but yet undeveloped resources of South Boston, the city possesses the natural maritime facilities for an extensive inland trade. Among other important improvements contemplated, is the construction of dry docks, which has been suggested by the Commissioners.

DIVISION OF WARDS.

This year a new division of the wards of the city is required by law, and the City Government have taken action in the matter, and will carry it into execution. Since the last division of the city great changes have occurred in some of the wards. Streets, formerly lined by residences, have become strictly business streets.

It is interesting to examine the former division of the city into wards. Wards 11 and 12 have gradually been crowded out on the neck, their territory diminished, and their population appropriated to other wards. Yet, notwithstanding these facts, they continue to prosper and increase, and are ready to part with another slice and yield enough of their population to render the population of the other wards more equal.

According to the boundaries of the wards as first established in 1746, Ward 11 was bounded on the South by West and Bedford streets,—Ward 12 was bounded on the North by the same streets, and South by Roxbury.

In the division of wards in 1805, Ward 11 was bounded on the South by Beach and Eliot streets, and Ward 12 on the North by the same streets.

In the next division, in 1822, Ward 11 was bounded on the South by Warren and Pine streets, and Ward 12 on the North by the same streets.

In the last division, 1838, Ward 11 had for its northern boundary, Pleasant, Indiana, and East Orange streets, and Ward 12, the whole of South Boston.

Ward 11 is now a very large ward, and in the next division its northern line will not probably extend into the city farther than the Worcester Railroad, perhaps not as far.

East Boston, now with a population of some 10,000, should be a ward by itself.

HALLS, BUILDINGS, OFFICES, ETC.

The past few years have seen a great improvement in the public buildings of the city. Those of recent structure exhibit most faithfully the growth of the public spirit and private enterprise. Government, churches, and institutions, are all imbued with the progressive spirit of the age, and their magnificent edifices are but the emblems of the wisdom and magnanimity which govern them in all their noble efforts. Private enterprise has done much towards giving our city a fairer exterior, and to it great credit is due. Those who were familiar with the city fifteen or twenty years ago, may well be astonished at the mighty contrast between that and the present time. Spacious blocks, warehouses, and commodious hotels, are to be noticed at almost every corner, and it will be also observed, that the work of improvement is still rapidly progressing. In a few years, but few of the old landmarks can be found.

CITY ELECTION,

Dec. 9, 1850.

At a meeting of the legal voters of Boston, March 4, 1822, the city charter, granted by the legislature, was accepted by vote, 2,797 yeas to 1,881 nays. Six unsuccessful attempts to constitute Boston a city had previously been made—in 1651, 1708, 1784, 1785, 1792, and 1804. In 1822, the town contained about 46,000 inhabitants; and the democratic mode of government peculiar to a town being found highly inconvenient, the previous strong feeling against a city form, arising from the fear of entrusting too much power to the hands of a few, yielded to obvious considerations of convenience. Since the adoption of the city form the public feeling is well satisfied with the results, as the representative form of government is not only popular but highly efficient.

TREASURY DEPARTMENT.

JAMES C. DUNN, CITY AND COUNTY TREASURER AND COLLECTOR. Office, City Hall.

Salary, \$2,400. Clerk hire, \$3,500.

WILLARD CLOUGH, JAMES PIERCE, THOMAS SEWARD, Deputy Collectors. Salary, \$170 each, and fees.
ELISHA COPELAND, Auditor. Salary and Clerk hire, \$2,200. Office, City Hall.

Tax Bills must be paid in sixty days from Sept. 1; if not, the delinquent is liable to pay twenty cents for summons and collector's fees, i. e., four per cent. on the first one hundred dollars, two on the second, and one on the third, and interest.

All taxes on real estate are a lien on it. *Each heir* is liable for the *whole* tax assessed to the heirs of an undivided estate. *Each partner* is liable for the whole tax of his firm.

To obtain an abatement of tax, good reason must, under oath, be shown to the assessors, and a certificate of abatement shown to the collector, and all costs paid.

ASSESSORS.

SAMUEL NORWOOD, GEORGE JACKSON, HENRY SARGENT, GEORGE E. HEAD. Salary, \$1,300 each.

 “ 11.—Greenleaf C. Sanborn, Geo. Palmer.
 “ 12.—Jacob Herrick, Timothy Bedlington.

On the first of May the assessors commence visiting the residences and places of business and taking a list of polls, estimating the value of personal property and appraising the real estate. In 1846 the tax was \$6.00 on \$1,000; in 1849 it was \$6.50 on \$1,000.

Citizens may prevent errors in tax bills by giving the assessors a true account of their property, &c., before August.

To vote in the City, a man must be a citizen twenty-one years old, have resided in the State one year, and in the city six months, show a paid bill of a tax assessed within two years, and have his name on the voters' list at the City Clerk's office, City Hall.

BIRTHS, MARRIAGES, DEATHS.

An ordinance was passed June 25, 1849, providing for carrying into effect in this city the laws of the State relating to Births, Marriages, and Deaths. The office of Superintendent of Burials was abolished, and that of *City Registrar* created in its stead. All births, marriages, and deaths, which take place in the city, are now required to be returned to this office, to be recorded, with such particulars in regard to each as the law requires.

Every parent or other person interested, who neglects to make a return of a birth, is liable to a penalty of five dollars. Notwithstanding this explicit requirement of the law, the citizens generally have failed to make the requisite returns. The last year, therefore, the Registrar employed a corps of gentlemen to visit the residences of the inhabitants, and collect the necessary facts, and the result, as stated below, will furnish some items of information of great value, not only to private individuals, but to the public. Efficiency has characterized the execution of this law, and its wisdom has been made apparent.

Every person who solemnizes a marriage, and neglects to make a return of such marriage between the first and tenth day of each month, is liable to a penalty not less than twenty dollars nor more than one hundred dollars.

Every undertaker, or other person, who shall superintend the burial of any person who dies in the city, who neglects to make a return of such death, is liable to a penalty of twenty dollars.

It is important that this law should be strictly carried into effect; to the public, that the health and condition of the population may be known; and to every individual, that evidence may be furnished by the records of the three great events of life, the birth, the marriage, and the death. Great personal inconvenience and pecuniary loss have often arisen from want of this evidence. If the importance of records was generally understood, no one would go out of the State to be married, or neglect to have his marriage entered upon the public records.

On discovery of any fraudulent representation of the quantity used, or to be used, or wanton waste, the supply will be shut off, at the discretion of the superintendent, or other agent in charge of the work.

BOSTON PUBLIC SCHOOLS.

The Schools of this city stand deservedly high. The most liberal appropriations are made for their support. Spacious and costly school houses are erected, and no expense withheld to promote the health, comfort, and convenience of the scholars. The care of the Schools is entrusted to careful and able Committees, who serve with great fidelity and interest in this responsible trust.

The City have this year appropriated the sum of \$323,650 to defray the school expenses.

Any pupil may be admitted into any Grammar or Writing School who on examination by the Master shall possess the required qualifications. In case an applicant shall be rejected by a Master, an appeal may be made to the Sub-Committee of the School. Pupils from the Primary Schools admitted into the Grammar Schools only on the first Monday in September and March, — other pupils admitted on the first Monday of any month.

No pupil admitted without a certificate of vaccination from a physician.

Boys are not permitted to retain their places in school after they have arrived at the age of 14. Girls can remain in the schools until 16 years of age.

The number of children in Boston in the year 1849 between the ages of 5 and 15, was 23,875.

SALARIES.

All Grammar and Writing Masters have a salary of \$1,500 each; Ushers in the Grammar and Writing Schools, have a salary of \$800 each; and all Assistants, \$300 each, except Head Assistants, who have \$400 each.

Salaries of the Masters of the Latin and High Schools, \$2,400 each; Sub-Masters, \$1,800 each; and the Ushers in both schools have \$800 each, for the first year of service, with an annual increase of \$100 for each additional year of service, until the salary amounts to \$1,200, at which sum it remains fixed.

PUBLIC LANDS.

STEPHEN TUCKER. Salary, \$1,100. Office, City Hall.

The land owned by the city at South Boston, and on the Neck, presents good locations for dwellings, and the price at which it is held affords excellent opportunity for a safe investment. Instead of moving out of the city, the citizens should secure a lot at either of these locations, and erect dwellings, as a residence at these places combines many of the advantages of the country. At South Boston, East Boston, and on the Neck, land enough is to be obtained, and at prices more reasonable and safe than out of town lots. At South Boston new streets have been graded, and the land prepared for building purposes, and there is now little or no occasion for Boston business people removing their residence to the neighboring towns, while South Boston, the Neck and the high grounds of East Boston, present such delightful and healthy situations for dwellings.

ALIEN PASSENGERS.**JOTHAM B. MUNROE, SUPERINTENDENT FOR THE PORT OF BOSTON.**

Salary, \$1,500. Office, 59 Long Wharf.

REGULATIONS.

Any master, owner, consignee, or agent of any vessel or any passenger carrier by water, who shall bring or aid in bringing into this Commonwealth, any alien never before within the State, shall, for each and every such alien, give a bond to the Commonwealth with good and sufficient sureties, to be approved by the Superintendent of Alien Passengers, in the penalty of one thousand dollars, with a condition that no such alien shall ever become a city, town or State charge as a pauper, and in default of giving such bond, shall forfeit and pay the sum of one thousand dollars for every such alien so brought into the State, *provided*, that it shall be at the option of every such master, owner, consignee, or agent of any vessel, or passenger carrier by water, to pay to the Superintendents of Alien Passengers, in place of such bond, the sum of two dollars for every such alien, who is not in the opinion of the Superintendent, a pauper, lunatic, or idiot, or maimed, aged, infirm or destitute, or incompetent to take care of himself or herself, without becoming a public charge as a pauper; *and provided, also*, that this act shall not extend to seamen sent from foreign ports by consuls or vice consuls of the U. S., nor to ambassadors, consuls, or public ministers, or other persons representing foreign states, nor to persons coming on shore from vessels in distress, or taken from any wreck.

Masters shall, within twenty-four hours after arrival, furnish to the Superintendent a list of the names, sex, occupation, condition, &c., of each passenger. No passenger shall be landed until such report shall have been made, and the proper examination made by the Superintendent.

Pilots and Masters of Vessels arriving with steerage passengers from Europe, are to anchor such vessels to the southwest side of Deer Island, until an inspection is made and bonds executed.

Vessels arriving from any other ports with Alien Passengers on board must anchor to the eastward of the lines prescribed for the regulation of Boston harbor, and there wait an inspection.

~~For~~ Masters of Vessels will greatly facilitate business by having a correct *list* of all the passengers before their arrival in port.

HARBOR REGULATIONS OF THE PORT OF BOSTON.**GEORGE P. TEWKSBURY, HARBOR MASTER.** Salary, \$1,200.

Office, Eastern Depot, E. Railroad Wharf.

LAWS.

SECTION 1. All vessels in the upper harbor are to anchor according to the directions of the Harbor-master.

SECTION 2. All vessels in the upper harbor, not intended to be hauled into some wharf immediately, must anchor below the range of India Wharf, and the easterly point of East Boston, either on the north or south side of the channel, designated by the following marks, viz.: on the south by the tall steeple in Hanover Street, in range with the Granite block on Long Wharf, and on the north by Long Island Light, in range with the half-moon battery on Governor's Island.

SECTION 3. The master, commander, or owners of vessels, shall, as soon as practicable, after having hauled to the end of any wharf that extends to the channel in said harbor, cause her lower yards to be cock-billed, and her top-sail yard to be braced fore and aft, and her jib-boom to be rigged in, and the yards and jib-boom shall be kept so arranged, while such vessel lies at the end of the wharf, as aforesaid, and until she is preparing immediately to leave her berth.

SECTION 4. All vessels found lying in the stream, not anchored according to the regulations, and not having a sufficient crew to move them, will be moved by the Harbor-master, at the vessel's expense.

SECTION 5. No person shall throw or deposit in said harbor, or any part thereof, any stones, gravel, ballast, cinders, ashes, dirt, mud, or other substances, which may, in any respect, tend to injure the navigation thereof.

SECTION 6. No warp or line shall be passed across the mouth of any slip, for the purpose of hauling any vessel by the said slip, before the vessel shall be within one hundred feet of said slip, if the owners or occupants thereof object, unless the Harbor-master may think it necessary.

SECTION 7. All vessels at anchor, in the harbor of Boston, shall keep an anchor-watch at all times, and shall keep a clear and distinct light suspended at least six feet above the deck, during the night; and whenever the provisions of this section shall be violated on board any vessel, the master or owners shall be liable to a penalty of not more than twenty dollars, to be recovered in the manner provided in the Act to which this is in addition, and shall be held liable to pay all damages that may be occasioned by such violence.

Under no circumstances whatever are vessels permitted to anchor in the track of the ferry boats, or in Four Point Channel.

QUARANTINE BOAT.

The Quarantine Boat is in the service of the Port Physician, and the men are paid by the City. She is used as a boarding boat, and visits all vessels coming from foreign ports, to inspect their crews, passengers, and cargoes. For this service a fee of \$10 is paid by each vessel.

JOSEPH M. SHERBURNE, *Superintendent.*

THE COMMON has many historical associations to attach it to the hearts of the people. From the earliest settlement of Boston, it attracted attention, which has been increasing ever since. It has several times been in danger of invasion, but thanks to the wisdom which then preserved it, and which has since rendered it inaccessible. The example should be heeded by all bodies who legislate for the health and happiness of posterity. Had this delightful spot been sacrificed to satisfy the cravings of public or private cupidity, language would fail in attempting to describe the injury it would have inflicted upon the city, or the contempt that would have covered the perpetrators of the deed.

Anxiety, however, for the future welfare of the Common, may well remain unaroused, as under the auspices of the City Government it must receive proper improvement. Much is now doing to render the place still more attractive. Great credit is due our worthy Mayor, for the efficiency which has been exhibited in improving it the present year. A superintendent has recently been appointed to take charge of it, whose efforts are giving it an additional beauty. Several years since the ashes and dirt that were carted on the Mall, were found to operate against the healthy condition of the trees. Plantain weeds sprang up also, to the great injury of the grass. This year, these evils have been remedied. The ashes have been removed, and about thirty loads of the plantain carried off. The consequence is, a healthier appearance among the trees, and a more luxurious growth of grass.

ITS EARLY HISTORY.

Commissioners were appointed to dispose of unoccupied lands, in 1634, and were instructed to leave out portions for new comers, and the *further benefits of the town*. Among this reserved territory was our present beautiful Common, which it is believed has always been public property. For many generations it served the double purpose of a

TRAINING FIELD AND PASTURE,

for which it was laid out by the town, according to depositions of the then oldest inhabitants, taken before Gov. Bradstreet, in 1684. The city ordinance forbidding its use as a pasturage, bears the date of 1833. The late militia laws have rendered its use as a "training field," in a measure obsolete; it is now used for the parades of our independent companies.

ATTEMPTS TO POSSESS

the Common have been made at different times. In one instance, a citizen petitioned for half an acre, for a building lot, but these attempts were all unsuccessful. We may be permitted to record an act which came very near making it private property. The proprietors of the

ROPE WALKS, IN 1795,

had the misfortune to have their property burned. The town generously offered them that portion of the Common which is now the Public Garden, rent free, for rebuilding, which offer was accepted. In 1819, the rope walks were again destroyed by fire, and the owners proposed to cut the land into building lots and sell it. To this the citizens strongly objected, and so intense was public feeling upon the subject, that it was left to referees, and as it appeared that the proprietors of the walks had *ground* for their claim, they were awarded the sum of \$50,000 to relinquish it, which the town authorities paid.

A clause was inserted in the City Charter making the Common public property forever, and placing it beyond the power of the city to dispose of it.

THE FENCE.

Previous to 1836 the Common was enclosed by a plain, unpretending, wooden post, three-rail fence. The present substantial iron fence was built at this date, and makes an imposing appearance.

THE MALLS

Are wide, gravelled and smooth, and are deemed the most delightful promenade grounds in the world. They are beautifully shaded by majestic

ELMS AND OTHER TREES,

to the number of upwards of one thousand, some of which were planted over a hundred years ago.

The time-honored elm still stands, the most significant and attractive of all, and crowds on all public days pay it a special visit. It has been strengthened by the aid of art, and it is enclosed by a fence to prevent its admirers from plucking a remembrancer from its rough exterior. By its side

LIES THE FROG POND,

but not the one of yore. Cochituate Lake now pours her glistening stream upon its rocky bed, and its waters leap and seem to laugh for joy that they have come to visit the far-famed garden of liberty. The wants of visitors have been anticipated, and, to give all the privilege of drinking the pure beverage, hydrants have been placed in different parts of the Common.

In early times the name of "Crescent Pond" was given to this sheet of water, and it has been known as "Quincy Lake," but none have been in so common use as that of "Frog Pond," which now claims precedence only by custom.

IMPROVEMENTS.

Several improvements in the Common are in contemplation, and among others is the novel one of extending the limits of the pond around the hill adjoining. It would make a beautiful island, accessible by bridges, add a greater variety to the Common, and exhibit a grander spectacle to visitors.

The wisdom of such an enterprise none will doubt upon a moment's reflection, and it will lead the way to other and greater improvements.

THE YANKEE BLADE,

A LARGE AND HANDSOME WEEKLY JOURNAL;

Devoted to Literature, Education, Morals, Criticism, Fun, News, Etc.

ESPECIALLY DESIRABLE TO THE FAMILY CIRCLE.

Published every Saturday, at \$2.00 per annum, in advance.

WHAT THE PRESS THINK OF THE BLADE.

YANKEE BLADE.—This is one of the best of the many "weeklies" sent forth from the "literary emporium." It has recently been fitted out with a new typographical suit, and otherwise improved. It is bright and witty without being vulgar, and clever without flippancy, is conducted in a good spirit, and with very marked ability.—*Boston Transcript*.

It rests on a substantial basis, having attained its position through the energy, taste, and ability displayed in its management.—*Boston Daily Times*.

One of the best conducted, and most truly original journals in any country.—*N. Y. Star*.

An exquisite paper. Whenever we open the Blade, we put on gloves. We are only sorry that Boston claims such a Blade, and New York does not.—*Holden's Dollar Mag.*

They name large ships, down in Maine, after the "Yankee Blade" newspaper. If they are as richly freighted as is Mathews' craft, they carry valuable cargoes.—*Boston Post*.

One of the very best papers on this continent. It still remains under the editorial control of Wm. Mathews, Esq., a gentleman of rare accomplishments. The Blade is published at \$2.00 per annum, on a large and elegant sheet.—*N. Y. Spirit of the Times*.

The Yankee Blade is the paper, if one wants to get the world for one week in a condensed compass.—*Cohoes Jour.*

The Yankee Blade, for this week, is "chuck full" of spice. We say, as we have said before, that it is the best weekly in the country.—*Albany Knickerbocker*.

An excellent weekly. One of the first to attempt the peculiar style of humorous articles which has recently become so popular throughout the country, the Blade has ever kept up its originally high standard, and occupies a foremost place among the family papers of the country.—*Buffalo Cour.*

The Yankee Blade has just commenced a new volume, and those of our readers who wish to secure THE BEST PAPER PUBLISHED IN AMERICA, would do well to subscribe at once.—*Marion (S. C.) Star*.

One of the most spirited and popular journals of all "Down East." It is well known, that the Blade has an edge that can dissect very cleverly whatever it enters upon.—*New York Gazette of the Union*.

A brilliant hebdomadal—one of the raciest papers we receive from the East.—*St. Louis Gazette*.

One of the best, if not the very best, literary papers received at this office, and deserves to be liberally patronized.—*Clinton (Pa.) Tribune*.

Any person desirous of receiving a copy of the Yankee Blade as a specimen, can be accommodated at the Office of Publication.

V. B. PALMER'S

AMERICAN NEWSPAPER ADVERTISING AGENCY;

No. 8 CONGRESS STREET,....BOSTON.

NEWSPAPER ADVERTISING, &c., IN THE UNITED STATES.

EVERY FACILITY IS AFFORDED FOR THE TRANSACTION OF BUSINESS WITH THE BEST
AND MOST WIDELY CIRCULATED JOURNALS OF ALL THE CITIES AND PRINCIPAL
TOWNS IN THE UNITED STATES, BRITISH PROVINCES, ETC., ETC.

The agent, V. B. PALMER, is duly empowered to receive subscriptions and advertisements at the publishers' lowest rates. He is authorized to make contracts, and his receipts are regarded by the proprietors as payments. The publishers prices (only) are charged to advertisers and subscribers—and the terms of each paper are on file for examination. A list of places, papers, terms and prices may be had at the Agency without charge. His long experience and extensive Agency qualify him to impart valuable practical information, which is cheerfully communicated. Through the Agency a circumspect and discriminating choice of places and the best selection of papers can be had, suitably adapted to various business pursuits—enabling persons to advertise judiciously, effectively and safely. Copies of the best newspapers in the United States may be seen and examined at the Agency, their respective merits understood, and a complete system of advertising adopted, upon either a large or small scale. Advertisements are carefully and skillfully written without charge, for those who are not experienced in the art—and improvements suggested in such as are written by unpractised hands. As he has no connection with any other person, all communications and orders intended for his agency should be directed to V. B. PALMER.

To prevent imposition, the public have been repeatedly cautioned against the acts of imitators and pretended agents, who infest some of the cities.

In his CARD to the public, V. B. PALMER, the Agent, says, "He believes that the *material* affairs of business transactions must be aided and sustained by a proportionate exercise of *intellectual energy*; and that this *intellectual energy* should keep pace with the facilities by which the *material* affairs of business are advanced. Every one is now obliged, if he would keep pace with the times, to aid his physical exertions in trade, or whatever business he may be engaged in, by due recourse to those means by which his business, trade, or profession, may become generally known. This is the *intellectual* part of his business, and the press is the medium through which it must, at the present day, be developed. Newspapers, now-a-days, are diffused far and wide; they are read by all, and are the vehicle by which men and establishments become generally known. As yet, this engine of intelligence has not attracted attention commensurate with contemporary improvements, simply because the *materiel* of business is more palpable and tangible; but the power of the press will yet be acknowledged as equal to that of steam for the furtherance of business enterprise."

Through this Agency, a regular, safe and systematic means is afforded to the business community, of giving notoriety abroad to their respective callings and pursuits—and all requisite information for the adoption of a complete system of advertising in the best newspapers of the country, *far and near*, for which he is deputed to transact business.

To public institutions, reading-rooms, clubs, &c., as well as to individuals, in all parts of the world, this agency presents a convenient, safe, and ready means of subscribing for the best journals of the Union, advertising in any number of the most desirable business newspapers, and obtaining valuable information.

Remittances may be made from any section of the country with entire assurance that all orders will be faithfully and promptly attended to. Address V. B. PALMER, newspaper Agent. BOSTON,—8 Congress street. NEW YORK—Tribune Buildings. PHILADELPHIA—N. W. corner of Third and Chestnut streets.

CAUTION.

To prevent mistakes, and guard the community against the designs of pretended agents, some of the best papers have notified the public that V. B. PALMER is their *only* authorized agent in the cities of Boston, New York, and Philadelphia. Various forms of notices are adopted, but as they are too numerous to insert in this place, a few specimens are given:—

The *Kennebec Journal*, *Augusta Age*, *Keene Sentinel*, and others, publish the following:—

"V. B. PALMER, the American Newspaper Agent, is the *only* authorized agent for this paper in the cities of Boston, New York, and Philadelphia, and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments."

The *New Hampshire Patriot*, as follows:—

"V. B. PALMER is our *only* authorized agent in Boston, New York, and Philadelphia. Persons in those cities wishing to advertise in, or subscribe for the *Patriot*, can do the business with him, with the perfect assurance that it will be properly attended to."

The *Vermont Watchman and State Journal*, as follows:—
"V. B. PALMER is our agent, (the *only* authorized one) to receive subscriptions in Boston, New York, and Philadelphia. Contracts made by him will be recognized by us."

"The business of advertising is imperfectly understood by merchants generally. Mr. PALMER's great experience and extensive agencies enable him to give very important and valuable suggestions in these matters to all who may favor him with an interview. The subject, as presented by him, is certainly worthy the serious attention of all persons engaged in active business."—*New York Daily Tribune*.

ADVANTAGES TO ADVERTISERS.

This Agency affords many valuable facilities to business men, which have cost the proprietor much labor and money, among which are the following, namely,

First. He knows the circulation and standing of the different papers, and will select the best for the advertiser, if desired.

Second. He will make out a list of the prices of the different papers one desires to advertise in, *free of charge*, so that the advertiser can choose understandingly.

Third. He will send the advertisements *promptly, without expense* to the advertiser, and be responsible that it is inserted in the manner stipulated.

Fourth. He will send the advertiser one copy of each paper containing the advertisement, and each paper can be seen at any time at his office, No. 10 State Street.

Fifth. The price for advertising will be the *same* as is charged to large customers at the offices of publication, and this will be less than is generally charged to strangers whose responsibility is unknown.

Sixth. Practical information respecting the value of different mediums for advertising will be cheerfully communicated, and assistance rendered without charge.

Seventh. The bill is to be settled with the Agent, and his receipts are regarded as payments by the publishers, and an account needs to be opened with only one person, which saves much needless trouble.

The foregoing and many other advantages will naturally accrue to business men from advertising through this agency, and all are cordially invited to give it a trial.

Opinions of the Press.

EXPRESSES.

The facilities afforded by the numerous Railroads centering in Boston, for rapid and cheap communication with all parts of the interior country, have given rise, within a few years, to an entirely new branch of business. The EXPRESS system was first introduced between Boston and Lowell, on the opening of the railroad between the two cities in 1835, by Mr. WM. C. GRAY, of Lowell. He was soon followed by HARNDEN, ADAMS, and others, on other routes, and the business rapidly enlarged, until the various lines have extended their ramifications not only through all parts of New England, but also to the principal cities and towns of the whole Union, to the distant regions of the Pacific, and to the commercial centres of the Old World. Parcels and merchandise may now be forwarded, and business of almost every kind transacted, through responsible and faithful agents, between Boston and the most distant parts of the country—affording a vast accommodation not only to those engaged in trade, but to all classes of the community.

So extensive has this branch of business now become, that a full presentation of its details, for the use of the business public, requires a publication devoted expressly to that purpose. This is furnished by the enterprising publishers of the "Boston Pathfinder" and the "Pathfinder Railway Guide"—Messrs. SNOW & WILDER, No. 5 Washington Street—who issue a monthly publication entitled "SNOW'S BOSTON EXPRESS LIST AND FORWARDERS' GUIDE," containing a directory to the Offices and Hours of Departure of all Expresses running from Boston, and a complete list of cities and towns, to the number of nearly *one thousand*, which are accommodated by this means of communication.

Four Accommodation Trains, five Woburn Branch Trains, and three Trains connected with the upper railroads, run to and from Boston daily. Time of Express, or Upper Train, 45 minutes.

No charge for children under four years of age. Half price for children between four and twelve. Fares in second class cars, between Boston and Lowell, 45 cents. The fares at Ticket offices five cents less.

Season tickets not transferable, and payable in advance, are given for three months, at the above rates. Between Boston and Woburn a discount of 10 per cent. is made on tickets for a year. Between Boston and stations north of Woburn, a discount of 20 per cent. is made on tickets for a year, and of 10 per cent. for six months.

Season tickets are not to be used on *Express* business, and entitle the bearers to carry nothing but strictly personal baggage, or such parcels as may be taken in the hand, without incommoding other passengers. Other articles, or merchandise, are not to be taken as baggage, except at the discretion of the Conductor, and by paying extra.

Package tickets are sold, to Woburn, Winchester, and Medford, in lots of not less than 50 whole ones, or 100 half ones, and with any proportion of the two kinds, at three fourths the cost of single tickets. Season and package tickets are allowed at half price for children under 12 years of age, and persons attending school.

Package tickets are taken in any regular train. Season tickets may also be used in any regular train, and allow any number of daily passages. Between Boston and stations in Somerville, and between Winchester and Woburn Centre, 13 tickets are given for \$1.00.

ADVANTAGES OF A RESIDENCE ON THIS ROUTE.

Somerville, Medford, Winchester, and Woburn present many delightful and healthy locations for a residence, not only for the gentleman of leisure, but the man of business in the city, as the cars pass through these towns often during the day and evening, affording excellent facilities for communication with Boston. Convenient tenements can be obtained at reasonable rates, which, together with the low price charged for the Season Tickets, make it an object of economy, as well as health and happiness, to reside in these places. In Billerica, also, a very healthful and agreeable retreat may be found in the summer season. This route enjoys great facility of access to important places in the North and East.

The number of trains between Boston and Medford, and Boston and Winchester, is nine each way; not including three express trains, which pass by without stopping.

MEDFORD BRANCH RAILROAD.

Trains run to and from MEDFORD, a distance of 5 miles, 14 times a day. Fare 15 cents. Time 15 minutes. Season Tickets, \$30 per year.

ADVANTAGES OF A RESIDENCE ON THIS ROUTE.

Somerville, Medford, Malden, Melrose, South Reading and Reading, towns within the range of the Special, as well as the longer Trains, possess many advantages for country residences, either through the warm season or the whole year, not exceeded by those of any other towns in the vicinity of Boston. The cheapness of fare, the number of Trains, both early and late, in connection with the convenient Depot in Boston, render this railroad a desirable channel of intercourse between the city and country.

ADVANTAGES OF A RESIDENCE ON THIS ROUTE.

No Railroad affords access to so many, so varied, and so splendid sea-side locations, or passes through so many pleasant cities, towns, and villages. Its Depots are within a mile or two of the celebrated beaches of Chelsea, Nahant, Sawmpscot, and Marblehead. A Branch skirts the shores of Massachusetts Bay, in the towns of Beverly, Manchester, and Gloucester, opening most magnificent views of the Ocean, leading to the most retired spots for sea-bathing, and to the most delightful walks and drives in the native forests, that can be found in New England. This shore is rapidly filling up with marine villas and cottages. Farther east, at Ipswich, Plum Island, Hampton, Rye, Boar's Head, Wells, and Saco—extensive beaches, good public houses, and healthful resorts for summer residence, afford advantages that are too well known to require description.

SCENERY AND ATTRACTIONS.

Dorchester, Milton, and Quincy, afford locations for some of the most delightful and healthful residences. Savin Hill, Harrison Square, and Neponset, from their proximity to the city, and their attractive scenery, have become favorite places of residence. The surface of the country, for the first ten miles on this route, is beautifully variegated, presenting a continual succession of picturesque views of the country, the city, and the sea. Its hill-tops and valleys are decked with splendid dwellings and tasteful cottages, and nowhere can be found the union of town and country more complete. An occasional ride in the cars as far as Braintree and Cohasset will amply repay one for the trifling sum exacted for fare. If, however, the ride is extended to Plymouth, after a visit to Plymouth Rock, Pilgrim Hall, and the graves of the Forefathers, the denizen of the city will return better fitted than ever to pursue his business.

PLYMPTON BRANCH RAILROAD AND SILVER LAKE ICE COMPANY.

Incorporated
by the

April 24, 1848.

DAVID DYER, President.

BENJ. FRENCH, Treasurer.

J. O. GIBBES, Manager.

Office, 109 Washington street.

Silver Lake is a beautiful sheet of water, seven miles in circumference, and situated within seven miles of the town of Plymouth. It is accessible by means of the Plympton Branch Railroad, which joins the Old Colony Road at Plympton. The above cut represents the Ice Houses and Ice cutting operations on the Lake in Winter. The Ice from this Lake is considered the purest of any brought to Boston, as it leaves no sediment whatever when dissolved; and from experiments which have been made, it appears that it takes a much longer time to dissolve than any other Ice, when placed under the influence of the same atmosphere, thereby effecting a considerable saving to the consumer; for which reason it has attracted the attention of shippers to warm climates, who have been at the pains to test the fact by a comparison with Ice from other sources. The difference is supposed to arise from Silver Lake being supplied by *pure spring water*, which is longer freezing, and when frozen becomes more solid, and is longer dissolving, than that which is collected from ponds of fresh water. The Company have extensive storehouses at South Boston, as well as at the Lake.

Such is the great superiority of this Ice over every other kind imported into the London Market, that it has obtained the exclusive patronage of Her Majesty, Queen Victoria.

It is the design of this corporation to establish an extensive *freight* depot, at East Boston, adjoining the Eastern Railroad and British Steamship Depots, on the deepest and best sheltered part of Boston harbor, for the accommodation of, and forming a junction with, the several railroads terminating in Boston. The area of this depot is about forty acres; and, united with the Eastern, which it adjoins, makes one grand freight depot, for the shipping interest, of fifty acres; extending from the Ferry wharf, southerly, on Marginal street, 2,150 feet, and westerly, 1,000 feet, to the Commissioners' Line, in the harbor channel. It is more particularly designed, however, for the great Northern line of roads now built and in progress of construction through the principal manufacturing districts of this state, and thence through New Hampshire and Vermont, into both Canadas, and reaching Northern New York at Ogdensburg, on the St. Lawrence, at the mouth of the Ontario, connecting Boston by the shortest and most expeditious route with the great West. By the establishment of this depot, the carrying-trade of the Canadas will be secured to the United States, and more especially to Boston.

SAMUEL S. LEWIS, Esq., is the projector of this enterprise, and we are glad to observe that some of our most intelligent and energetic citizens are associated with him in carrying it out.

The Railroad connecting the Depot lands at East Boston with the Eastern, Boston and Maine, and Lowell and Fitchburg roads, is nearly graded, and will be completed and in operation in the Spring of 1851.

The charter of this Company allows any other railroad corporation to establish depots on their premises, and authorizes such railroad corporations as may establish depots there, to hold lands necessary therefor, in fee simple, or otherwise. Boston, from its favorable position, being nearer than New York to the Upper and Lower British Provinces, and also to Europe by sailing vessels, from four to seven days, and by steam, from one and one half to two days, is destined to become a great *export* city, when her railroads now in progress of construction shall have reached the Canadas, the Lakes, and the great West, affording facilities to bring to her port for shipment, the vast products of the West. These roads will be completed to Ogdensburgh, it is expected, in the year 1850. and then the advantages of Boston as a shipping port will be more fully developed, and will be found equal to any in the Union. It is also predicted, that our railroad connections, commencing at the depot of this Company, on

the deepest water in the harbor, extending and communicating with both the Canadas by the shortest and most expeditious route, Boston will also become the port of entry for the Canadas, and that goods arriving here in the steamships, after a passage of twelve to thirteen days, may be delivered in Montreal and Upper Canada, within fifteen days of their shipment in Liverpool, and chargeable with no other expenses than freight on shipboard and railroad; thus placing the Canada importer, by the way of Boston, on an equal footing as to time (and with but trifling additional expense,) with the New York importer, via Boston.

"The objects of this Company, though somewhat various, are all and eminently designed to promote the trade and commerce of the city; to facilitate the operations of commerce with the interior trade of the country; to aid in distributing the productions of other countries, and in the export trade of our own. By the use of our wharves and railroad, the cars for the interior are brought into immediate connection with vessels from every port, and the freight of the ship may be exchanged for that of the cars without any other agency than that afforded by the accommodations of this Company. A ship from England may unload her cargo of merchandise, to go to Canada, on one train of cars, and receive her cargo of flour for the return voyage from the next. Or, by our warehouses, the same cargo of merchandise, or the same freight of flour, may be placed in store or bond until required, and it will be seen that whatever the commodity, wherever it came from, or where designed to be sent, the saving of expense in the facilities afforded by this Company would equal a large part of the cost of conveying it to the interior from the ship, or to the ship from the interior.

"The geographical relations of the city of Boston, being almost an island, are peculiar. Although the extent of the city proper, at the present time, is estimated to be nearly double its original size, its capacity is all improved; dwelling-houses are constantly giving room to stores; and the increasing business of the city is still demanding further and larger accommodations. In fact, Boston has not only spread itself out, as it were, in all directions, but has actually extended its limits across two arms of the sea, and, once a city of three hills, is fast becoming a city of three cities; and, at the same time, as if in this number was to be found the magic of the city's greatness, three other cities have grown up around her by the same impulse—all indicative of the industry, activity and enterprise of the New England character."

RAILWAY INFORMATION OFFICE.

The progress of Railway enterprise in New England, during the past fifteen years, has far outstripped that of any other branch of public improvements. In 1840, the number of miles of Railway in operation was 404, which had been constructed at a cost of about \$15,000,000. At present, not less than two thousand three hundred miles are in actual daily use, the construction of which has involved an outlay of more than one hundred millions of capital. The whole face of the country has become overspread with a complicated net-work of iron tracks, and very few places of importance remain unconnected with the metropolis by this mode of conveyance.

This Railway System has effected a wonderful change, not only in the means of locomotion, but in the whole current of business. To meet the constant call for information in regard to the various lines of railway which have their common centre in Boston, an office has been established at No 5 Washington street, from which is issued on the first Monday in each month the

PATHFINDER RAILWAY GUIDE.

A very convenient and useful work, published by SNOW & WILDER, under the direction and authority of the New England Association of Railway Superintendents. An accurate Pocket Companion of this kind, giving the starting time of each train from each station, on all the Railways in New England, with the distances and fares, and other important information for travellers, is very much needed; and as this work is issued with the sanction and co-operation of the Railway superintendents, who furnish the information for their respective roads, it can be relied upon with entire confidence. Every traveller should have one of them in his pocket.

PERKINS INSTITUTION AND MASS. ASYLUM FOR THE BLIND.

OFFICERS.

RICHARD FLETCHER, President.

EDWARD BROOKS, Vice-President.

SAMUEL G. HOWE, Director and Secretary.

T. B. WALES, Jr., Treasurer.

The Asylum for the intellectual improvement and the practical education of the Blind, was established in 1829. It was founded by both private and public donations, among which the munificent gift of the Hon. Thomas H. Perkins stands preëminent, and whose name it now bears. The management of the Institution has been abundantly successful, and the great benefit received by the pupils is every where spoken of with praise. Instruction is given in all the studies common to other schools, and also in a class of manufactures best adapted to their situation. The progress which the pupils have made, has been a source of great satisfaction to them and their friends.

For a number of years the manufactures of the Institution have been offered for sale at its Sales-rooms in the city, under the care of Mr. I. W. PATTEN. The success which has attended this branch of business, has exceeded the expectations of its friends, and speaks well for the judgment and enterprise of the Agent. So rapid was the progress which attended this Department, that it was found necessary to obtain more spacious Sales-rooms. The present central and excellent location in Bromfield street is found to answer the purposes admirably, where the firm and substantial manufactures of the Blind are offered for sale.

The great demand for these goods, however, afforded employment for a larger number of workmen and required additional facilities. Until the present year, the manufacturing has been carried on in the Asylum, but it was thought best to have a separate manufactory, in order to accommodate their increasing operatives, as well as to meet the demands of their growing trade. A large and commodious building has accordingly been erected, which may be called

The Manufactory of the Blind.

This building is three stories high, 67 feet long, and 37 feet wide. Its location is directly in front of the Institution, and it is to be surrounded by a fence and garden. It is entirely distinct and disconnected from the Institution, and is under the superintendence of Mr. DANIEL L. BRADFORD, who is well qualified for the station he occupies, and is very popular among the operatives. To this gentleman we are indebted for the facts we obtained. Mr. LYMAN SMALLEY is the foreman of the mechanical department.

Immediately on entering the building, the attention is directed to a neat circular stairway, reaching from the basement to the store-room in the upper story. In the centre of this is an apparatus for hoisting goods. There is a furnace and steam boiler in the basement. Also, machines for picking and spinning hair

for the manufacture of mattresses. The attic is used as a store-room, and also contains several machines for preparing the materials for use.

The first story contains three rooms. The first on the right of the entrance is the general receiving room; the second on the left, a store-room for manufactured goods; another is used as a washing, ironing and drying room, and the fourth is used for the renovation of feathers by steam—a process much superior to any other, and by which all the feathers from this establishment are cleansed.

On the second story will be found a neat and commodious Counting Room, which also serves as a Cutting Department. Another room is occupied by females, who were as industriously plying the needle as though they possessed all the advantages of sight. Cane-seating chairs and braiding mats are branches carried on in the next apartment, which extends in the rear of the two first, the whole length of the building.

The third story is used for filling mattresses, sofas, &c., and has separate apartments for keeping the materials used, which consists of hair, husk, straw, palm-leaf and feathers.

The building is thoroughly ventilated, and each room is heated by hot air from the furnace. The chimney is encased with a steam conductor which opens from the basement and first story, and is connected by flues with each room, through which all the steam arising from the cleansing &c., may escape. Every thing is well arranged for the convenience of the operatives, who number about thirty. They take care of themselves and board where they please, having out-grown the direct guardianship of the Institution. This a step of advancement which few have entertained would ever be taken by this unfortunate class of persons.

The affairs of the Institution are in a prosperous condition. Last year the sales of the Work Department amounted to nearly \$16,000, but with their increased facilities for manufacturing they will considerably exceed that sum the present year.

The public should remember that in patronizing this Institution they are not only sure of procuring the best articles, faithfully made, and of superior material, but also that they are aiding and encouraging a class of unfortunate beings, who should always receive their best sympathies—and, when so meritorious, most assuredly their patronage.

Office and Sales Rooms, No. 20 & 22 Bromfield street, Boston, where visitors can obtain permits to visit the Institution, which is open for their reception the first Saturday of each month.

Quanapowitt Railroad is located in South Reading, 10 miles from Boston, leading from Lake Quana-
powitt, and intersecting with the Boston and Maine Railroad. They have twelve spacious buildings
for housing ice, and a large train of the first class freight cars, lined with charcoal like refrigerators,
for the purpose of freighting ice to market. The New England Ice Company is composed of the same
proprietors of the Railroad, and have the entire ice privilege of the magnificent Lake Quana-
powitt, which is the best in New England; it being supplied from springs of pure water, furnishes ice of the
first quality, clear and solid. This company have great facilities for furnishing ice at low rates, and
have an extensive business. They pay 20 per cent. dividends annually on the capital invested.

All orders or communications directed to the office, No. 69 Hanover street, will meet with prompt
attention.

FANEUIL HALL MARKET.

Eastern View of Faneuil Hall Market, with North and South Market Streets, Faneuil Hall, &c.

The new Faneuil Hall Market was built by the City in 1825, through the enterprise, perseverance and influence of the Hon. JOSIAH QUINCY, while Mayor of the city. It is 536 feet long and 50 feet wide, and is unequalled by any other in the Union. The location is central, and the best of the substantial necessities of life are to be found here in abundance. The stalls are always in demand, and the building is a source of considerable income to the city. The second story is occupied as an armory for the National Lancers, &c.

THE SOUTH MARKET

Is located on Beach street, between Lincoln and South sts.; it is often called the Beach Street Market, but its incorporated name is THE SOUTH MARKET. The building was commenced in 1848, and finished in 1849. Its dimensions are 72 feet by 119, and it is substantially built. The first floor is fitted up as a market and contains 38 stalls for the sale of meat, fish, vegetables and fruit. Situated in a section of the city which is rapidly increasing in population and business, it cannot fail to yield a fair dividend to the stockholders and prove profitable to the occupants.

The proximity of this market to the Western Railroad, the great depot of Western produce, is favorable to its prosperity. The Old Colony Railroad Depot is close at hand, and residents of Dorchester and the neighboring towns, who daily pass over that road to their business in the city, find it a very convenient place to leave their empty market baskets, to be filled with the good things found there. To the South End purchaser it offers great inducements, as its already numerous patrons can testify, who avail themselves of the advantages and conveniences of this market. A large supply in great variety is always on hand at the lowest market rates.

The upper story of The South Market is well arranged for theatrical performances. The growth of the South End seems to require a convenient place for amusement, and the proximity of this building to a large portion of a thriving section of the city, commends it to the favorable attention of theatrical managers in particular, and to proprietors of exhibitions generally.

MERCHANTS' EXCHANGE.

This magnificent structure attracts the attention of the stranger, and Bostonians do not forget to mention it among the objects of interest which surround them. Quincy Granite alone forms the front, having six columns, each forty-five feet high, and weighing together 330 tons. The building is fire-proof. The staircases are made of iron and stone; the roof of wrought iron, and covered with sheet iron. More than a million and a half of bricks were used in its erection. It has three entrances—on State, Congress, and Lindall streets—and is located in the very heart of trade.

THE MERCHANTS' EXCHANGE READING ROOM

Is really magnificent; its dimensions are eighty by fifty-eight feet, with eighteen columns, twenty feet in length. They are an excellent imitation of Sienna marble, crowned with Corinthian capitals. The brilliant dome is a highly finished ornamental work, with a beautiful, enamelled sky-light of colored glass.

EAST BOSTON.

This section of the city is increasing in population, business and wealth. The introduction of the Cochituate Water will not only promote the health and increase the convenience of the inhabitants, but will add materially to the prosperity of the place. East Boston affords great inducements for a residence. Its high grounds are becoming covered with dwelling houses; from these elevations the scenery is delightful. During the present year a new division of the wards of the city is to be made, and East Boston will be a ward by itself.

Joy's Building, No. 81 Washington street, is well adapted for Offices. It is situated in the heart of business, nearly opposite the head of State street. The Building stands on the site of the First Church, and since its erection has been remodelled several times. It now resembles many European edifices in its interior arrangement, having a main entrance to the centre, from which ascends a circular stairway to the top. Surrounding this, on each story, are located its numerous offices, all large, airy, and convenient.

Several of the rooms are now unoccupied, giving a good opportunity to those in quest of a central location, to procure one on desirable terms.

GEORGE ADAMS.

**RE-NUMBERING OF STREETS.**

The mischief and inconvenience arising from the present numbering of the streets in Boston, seem to call for immediate reform. It certainly has been suffered long enough, and we are now advocating a **SYSTEMATIC PLAN**, effectually establishing the regular numbers which no innovation can disturb.

The **CITY GOVERNMENT**, ever watchful for the public good, approve, authorize, and will aid the movement. It now remains for the citizens to co-operate in the measure, and they will soon experience relief from the present irregularity of numbering. We engage in no hasty or ill-timed schemes; our plan is, mainly, prospective. Having fixed upon the proper and permanent numbers, we consulted and arranged, with those interested, with a view to establish the *new* numbers. Into each number of the **BOSTON DIRECTORY**, these new numbers will be introduced simultaneously with their appearance in the streets re-numbered, thus obviating the main objection to a change of numbers, and effectually preventing results injurious to the residents on such streets. Circumstances have somewhat circumscribed our field of operations this year. But we are very desirous of carrying the proposed plan into effect; knowing that, if we can but demonstrate our plan in a few streets, all will unite in demanding its practical adoption in such other streets as require re-numbering. Desirous, however, of moving cautiously, and in accordance with the wishes and interests of those concerned, we shall not attempt many of the business streets at first.

THE WRONG SYSTEM OF NUMBERING.

It has usually been the practice in this city in numbering a street, to allow numbers only to buildings; making no allowance for vacant lots. This has caused the present confusion in the numbers; as it was found necessary to repeat the numbers, or put irregular ones on all the new houses erected.

THE RIGHT SYSTEM OF NUMBERING

is to allow regular numbers to every lot, whether occupied or vacant, thus providing for any contingency, and effectually preventing all future disturbance in regard to numbers. A surplus of numbers in a street can do no injury, while a deficiency is calculated to work mischief. In the former numbering of streets the most rigid economy seems to have been observed in appropriating the numbers; and to a given space, rightfully claiming say ten numbers, perhaps not more than six or eight have been given. In those streets which have been new re-numbered, we have liberally distributed the numbers, and the consequence will be that whatever future changes may occur in such streets, the permanency of the new arrangement will not be affected.

EXPLANATION.

The numbers next to the names are the old numbers; the numbers given in the centre adjoining the street, are the new and proper numbers to be adopted.

TREMONT STREET DIRECTORY.

TREMONT STREET. The old and irregular numbers, and the new and proper ones are here presented. No street in the city requires new numbering more than this, as will appear from a careful examination of the plan. The owners and occupants of buildings and lots have given, almost without exception, their ready consent and approval of the plan; and this great improvement will be carried into successful operation upon the appearance of this No. of the Directory. The confusion arising from the old numbering, will thus be remedied. Many of the residents are our most respectable citizens, who have for years occupied these dwellings. Some of them have not suffered the inconvenience that others have from the improper numbering of the street in some sections of it. Yet they have consented to relinquish the old numbers and adopt the new ones, with a view to accommodate others. It will be noticed that we have placed numbers liberally, and have left them against the burial grounds on this street. At some future, and perhaps at no remote period of time, the numbers may be wanted, as buildings will, no doubt, cover these grounds within the present century.

BOSTON COMMON.

This lovely spot acquired the name of "Common," as early as 1646, which it has since retained. As a promenade, it contributes essentially to the health of the city, and is becoming more and more frequented as every year new beauty is added to it. The water of Lake Cochituate (17 miles distant) has recently made its way to the "Frog Pond," a beautiful sheet of water near the centre of the Common, and, as if in joy to free itself from its subterranean passage. It forms a splendid fountain, throwing a jet to the height of 92 feet, sparkling and forming a rainbow in the rays of the sun, cooling the air, and filling the beholder with delight.

New York may boast of its fountains, and its battery and parks, but Boston overshadows her in this respect now.

Nearly a thousand trees shade the walks. The big Elm, over 100 years old, spreads its branches 97 feet, and measures 20 feet in circumference 2 feet from the ground. The Common contains 48 acres; the iron fence around it cost over \$100,000 and is 5,932 feet, (about a mile) in length.

Extensive improvements have been made in the condition of the Common during the past Spring, so that it now presents a more attractive appearance than ever before.

INDEX

TO THE INVITATIONS TO TRADE.

The business of those who have made the Directory a medium of communication with the public is here given. For the tasty manner in which their favors are displayed, we must give the credit to the skill of the printers. The vast trading public, who have occasion to refer to the Directory, will doubtless find these notices valuable for reference at all times. Our patrons are numbered among the most enterprising business people in the city, and we cordially commend them to the favorable attention of the public.

HOT-AIR VENTILATING FURNACE,**FOR HEATING & VENTILATING****DWELLINGS, CHURCHES, HOSPITALS, SCHOOL HOUSES, STORES, &c.**

This strictly scientific invention has been thoroughly tested the past four years. Several hundreds have been put up in public and private buildings, and received the approval of the learned and scientific. The Committee of the State School at Westboro', and Atheneum at Boston, after a thorough examination of all other furnaces in the market, adopted this as the only one which, from its extensive perpendicular surface and peculiar construction, would produce the luxury of the diffusion of a pure summer atmosphere, of uniform temperature, during all the changes of our winter climate, — a temperature which the most delicate constitutions will find easy of respiration. It is remarkable that the same apparatus which thus produces an agreeable summer temperature in winter, may be used with equal safety and ease to modify the heat of summer, as the same channels which diffuse

warmth in the one case, ventilate the house in the other. The economy in the use of fuel is another important consideration, making and controlling more heat than by any other process of using it, and fully retaining the vitality of the air. Any person desirous of having the pots lined with Soap Stone, we shall be happy to accommodate. We are pleased to refer to the following gentlemen, of Boston, who have this valuable Furnace in use.

which imparts to the water neither color, acid or taste. The
outside of the pipe is covered with a composition that pre-
serves them from rust. Those using Cochituate water will
find it for their advantage to call and examine.

He has also invented a GLASS STRAINER, to be placed
at the bottom of Wells and Springs. The water is carried
through glass lined pipes to any part of the house desired.

DRILLED-EYED & COMMON NEEDLES OF ALL QUALITIES,

Razors, Scissors, Steel Pens, Pearl Buttons, Superior Table

AND OTHER FINE CUTLERY,

FOWLING PIECES, GUNS, &c. &c.

48 MAIDEN, LANE, NEW YORK.

NEEDLES OF ALL QUALITIES AND PRICES FOR SALE ON THE BEST TERMS.

Needles for Surgeons, or for other Scientific purposes, manufactured to order.

CAUTION.

J. Warrin's Needles have received the approval of the public for upwards of twenty years, and in consequence of their great celebrity, some unprincipled dealers have imitated his labels, and put them upon inferior, low-priced Needles. The counterfeit label imitates the genuine one in its general appearance, and reads, "MANUFACTURED FOR J. WARREN, REDDITCH." On the genuine, Warrin is spelt with an i, (not e,) and reads "MANUFACTURED BY (not FOR) J. WARRIN, REDDITCH." In addition to the GILT label, on the genuine Warrin Needles, they have a small GREEN label on the tuck, or shorter fold of the paper, which reads, "MANUFACTURED AND WARRANTED BY J. WARRIN, EAGLE MILLS, REDDITCH."

☞ Legal proceedings having suppressed one imitation, another has since made its appearance; which reads Manufactured "*for J. Warren, at Alcester, near Redditch.*" Dealers are cautioned against this new imitation.

☞ Dealers are cautioned against vending Needles counterfeiting the Trade Marks of the subscriber.

J. WARRIN,

EAGLE MILLS, REDDITCH, WORCESTERSHIRE, ENGLAND.

Jobbers and Importers will find it to their advantage to purchase Needles and Fish Hooks of the subscriber. Every attention is paid to Manufacturing the best NEEDLES AND FISH HOOKS that can be made from the best Spring Steel Wire. Their superior quality will always give satisfaction to the customer, and ensure them a saleable article. He keeps on hand Needles of every *quality*, at the lowest prices. He puts his name, however, only upon the very first quality of Needles and Fish Hooks.

☞ Common Needles of every description and quality, at the lowest prices.

THOMAS WARRIN,

48 MAIDEN LANE, NEW YORK.

SOUTH BOSTON.

This interesting and important section of the City, was formerly a part of Dorchester. In 1804, by an act of the Legislature, it was annexed to Boston, which annexation was soon followed by the erection of the South Bridge, and afterwards by that of the North Free Bridge,—the two structures, which at present connect this portion of Boston, with the city proper. Great efforts are being made to construct a third link to the city proper, by the erection of a new bridge.

SOUTH BOSTON BRIDGE.

This was incorporated in 1804, and opened for travel July, 1805. Length 1,550 feet; cost \$50,000. It is now city property and *free*.

NORTH FREE BRIDGE.

Incorporated in 1826, completed in 1828. Length 500 feet. Built by proprietors of land in the vicinity, and now city property.

The portion of the city known under the name of South Boston, forms the 12th Ward of the city, and is fast increasing in population and in wealth. The land is mostly elevated; affording from some of its highest points, a splendid view of Boston and vicinity. "Dorchester Heights," memorable for the revolutionary scenes connected with them, and celebrated for their beautiful elevation, form an interesting portion of this part of the city. On one of them is erected a capacious Reservoir, for the reception of water from Cochituate Lake.

South Boston contains about 600 acres of land, and nearly 13,000 inhabitants. The manner in which it is laid out, in squares—with seven wide streets of great length, intersected by numerous cross streets, renders it a most desirable location for business purposes, or for a place of residence. Many fine lots for building, are in the market, which offer an excellent opportunity to those who wish to unite the advantages of a city and country residence.

This place is well supplied with good schools, churches of different denominations, and with stores and shops in great abundance. The air is pure, and the water such as Cochituate Lake affords; the pipes being laid in most of the streets, which are supplied from the Reservoir; this being of sufficient height to convey the water to the highest buildings. South Boston is not deficient in the manufacturing business, it contains a great number of manufactories of Iron, Glass, &c. &c., which, added to its numerous stores, render it a worthy adjunct to its prosperous parent. WILDER'S PATENT SALAMANDER SAFES,

JOHN E. WILDER, MANUFACTURER AND PROPRIETOR,

25 Merchants' Row, near State Street, Boston.

The following letter from the Superintendent of the Main Telegraph Company, is proof of the superiority of John E. Wilder's Safe over all others:

BANGOR, OCT. 24th, 1849.

John E. Wilder, Esq.:—Dear Sir—The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph Office in this city. It was

in the fire six hours. The books and papers were uninjured, and the damage to the Safe very slight, although it fell from the second story to the basement of the Building. The little repairs necessary to the Safe have been made, and we shall not need to return it. It is still as good as new.

Respectfully yours,

JAMES EDDY.

PETTENGILL'S NEWSPAPER ADVERTISING AGENCY, NO. 10 STATE STREET, BOSTON.

S. M. PETTENGILL is the authorised Agent for the *principal Newspapers* throughout the United States, and they are on file at his Office, No. 10 State street, Boston. All who desire information respecting Newspapers, or wish to Advertise in any section of the country, are invited to call and examine his immense list. He can insert Advertisements in the Newspapers in any section of the country to **MUCH BETTER ADVANTAGE** than Advertisers can do it for themselves. He will cheerfully show any one the advantages to be derived from his agency, which will be, as he can prove to all, a **SAVING of expense, time and trouble** to those who Advertise through his Agency.

He is appointed the Agent in Boston, for some **FIVE HUNDRED NEWSPAPERS**, and they are among the principal and most influential in the country. He has also received long and extended notices in many of the papers, commending the promptness and fidelity with which his business is conducted. A few of these notices from the New England press, we annex :

☞ S. M. Pettengill, 10 State street, Boston, has started an Advertising Agency. He is an enterprising gentleman, a practical printer who is thoroughly acquainted with his business. In forwarding his advertisements, he has done so to those papers having the *widest circulation*, thus affording those who intrust him their business, evidence of his devotion to their best interest. *Barnstable Patriot*.

The above notice is well deserved by Mr. Pettengill, and it give us pleasure to copy it. The energy and enterprise which the gentleman alluded to has displayed in the management of his business is truly commendable. Already has he established a business in New England which it would take many a man an age to accomplish; and all this through his energy and integrity of character. He is faithful in the performance of his engagements, and prompt in the execution of all orders entrusted to his charge. *Boston Daily Bee*.

If the public had an opportunity to examine all the papers we alone receive—and they of course are but a mere fraction of the papers that authorize Mr. Pettengill to act as their Agent—they could then judge of the magnitude of the falsehood that Mr. Palmer "is the *only authorized agent*" for the transaction of business with the country press. We are happy to see the press generally take the part of Mr. Pettengill. They are becoming acquainted with him—that is sufficient to create him friends.

We assure Boston business men that Mr. Pettengill is the authorized Agent of the New England press generally. The assurance, however, is rather superfluous, as some two or three hundred of them have given assurance of their confidence in him through the columns of this paper.

Brandon Post, May 30, 1850.

PETTENGILL'S AGENCY. Mr. S. M. Pettengill appears to have established his agency for newspaper advertising, subscription and collecting, on a firm basis; and we, in common with numerous others of the country press, have already received too many substantial evidences of his enterprise not to believe him worthy of at least a share of public patronage. *Montpelier Green Mountain Freeman*.

☞ We know Mr. S. M. Pettengill; we know him well; have known him long. He is a most active, industrious, persevering young man. And what is of more consequence than the rest, he is a man of sterling integrity, one whom you can trust anywhere, and feel that any interest you may choose to trust in his hands, are as safe as in your own. This is the kind of man we like, and we would recommend to any one who has any business in his line, to send it to him, and they may rest assured that it will be promptly and faithfully attended to. *Lawrence Sentinel*.

PETTENGILL'S NEWSPAPER AGENCY. The importance of a more direct communication between the business community and the proprietors and editors of the various daily and weekly newspapers, throughout the country, was long since seen and acknowledged.

Like most other enterprises, the business has increased, and its importance has been established to such an extent, that a broad field of fair and honorable competition has been opened; and we would refer at this time particularly to the Newspaper and Advertising Agency of Mr. S. M. Pettengill, Boston. Mr. Pettengill is particularly well qualified for the discharge of the trusts which the business imposes. His manners are easy and courteous, his habits prompt and energetic, his qualifications superior, and his integrity unquestionable. It is not, therefore, surprising that he has already, although comparatively but a short time engaged in the enterprise, secured a large business, and a wide and high reputation. But we are not a little surprised that Mr. V. B. Palmer should advertise, as we noticed he has in some of the papers, that he is the *only authorized agent* for newspapers. Who appointed him the *only authorized agent*? A self appointment could not make him such. We suppose Mr. Pettengill might, with the same propriety, claim to be the *only authorized agent*, but we have never heard of his setting up any claims of the sort. He has entered the business as an honorable competitor, for a fair share of the rewards which are sure to follow industry, integrity and perseverance.

Having had various transactions with Mr. Pettengill, we can speak from personal experience of the manner in which his business is conducted. We have found him to be an efficient and gentlemanly man, faithful in all matters entrusted to his care, prompt in the settlement of his accounts, and every way worthy of confidence. With these views and feelings, we most cordially recommend him to all merchants and classes who have business with the newspaper press, and to all brother editors and proprietors throughout the country, who desire to have a good and efficient agent in the city of Boston. Mr. Pettengill's office is No. 10 State Street. *Lynn Bay State, June 13, 1850.*

NEWSPAPER AGENCY. We ought before this time to have spoken more fully of the Newspaper Agency of S. M. Pettengill, Esq., No. 10 State street, Boston. From the establishment of Mr. Pettengill's agency to the present time, we have had occasion to transact with him a large amount of business, and through this whole period he has proved himself to be not only an honest and honorable, but also a very capable person. Some of the business entrusted to him has been transacted to a much better advantage than we could have done it ourself; and his charges for commission have been exceedingly moderate. A disposition for gouging he has never betrayed, but on the contrary has exhibited a liberal and noble spirit. He may well be termed a *whole-souled man*. *Bradford, Vt., Gazette*.

This is one of the most extensive Printing Establishments in New England, and it has recently been NEWLY FURNISHED THROUGHOUT, with Type of every description cast in the United States and Europe, requisite to a complete Printing Office.

The Presses, which are run by steam, are new and of the most improved construction, and comprise a variety of patterns recently invented, calculated to execute work well and fast. Attention is called to a new and beautiful REVOLVING CYLINDER PRESS, manufactured by Messrs. HOE & Co. of New York, expressly for Job Printing, which will throw off **FOUR THOUSAND IMPRESSIONS PER HOUR**, in style and clearness far superior to any other machine now in use, enabling us to furnish this part of our work at nearly one half the former prices, and which those in want of Printing are invited to call and examine.

CARD PRINTING.

Our facilities in this branch cannot be surpassed. The Presses are of the best possible construction for rapidity and neatness of execution; our materials are all new, and have been selected without regard to cost—and as we manufacture our own cards, we are prepared to print them by the million at prices below anything ever dreamed of in the history of CHEAP CARD PRINTING.

With our present means, and a determination not to be outdone, we feel confident that every kind of Printing can be furnished cheaper and better than from any other establishment in this country.

OUR NEXT DOOR NEIGHBORS. Next door to us, in the Olive Branch Building, is the Pathfinder Printing Establishment, which deserves a passing notice on account of the rapid growth and constant increase of its business. The Boston Pathfinder, published by Snow & Wilder, is a favorite paper among the business men of the city who have occasion to advertise, as its columns abundantly prove. In fact, its sole reliance for support is upon its advertising patronage, the paper itself being distributed gratuitously in the railway cars, where it is read by all classes of people. The editorial management of the paper, for upwards of two years, was exclusively in the hands of Mr. Elias W. Wilder, one of the present proprietors. On the first of January last, Mr. Benjamin P. Shillaber was engaged as associate editor, and the traces of his peculiar genius are now visible in every number. He is the author of those quaint paragraphs which have appeared in the Boston Post, as the sayings of “Mrs. Partington,” as well as of many other humorous productions, both in prose and verse; and his accession to the Pathfinder has given it great popularity.

It is from this office that the “Pathfinder Railway Guide” is issued, under the authority of the Railway Superintendents. This monthly publication was commenced some time last summer, and the demand for it now is very extensive in every quarter of New England, and

people will soon be as unwilling to be without the latest edition, as to be without an almanac for the current year. It gives, in convenient form, and with unquestioned accuracy, full and complete time-tables for all the railways in New England, and is sold for the trifling sum of five cents a copy. The editorial and typographical supervision of this Guide-Book is entrusted to Mr. Alonzo E. Newton, a thoroughly educated printer and careful proof-reader, who is unremitting in his efforts to make it a reliable traveller’s companion. In this work he has the cordial co-operation of all the railway superintendents in New England.

Snow’s Boston Monthly Express List, a very convenient little book for merchants and others who have occasion to send packages by express, is likewise issued from this office, and is growing in popularity wherever its usefulness is known.

Besides printing these several publications, Snow & Wilder do a large amount of book, card and job printing, for which they have excellent facilities. Their office contains almost every kind of fancy type, and presses of the most approved construction. One of their printing machines—a recent invention of Mr. Adams, the celebrated press manufacturer of South Boston, is quite a curiosity. It combines advantages not possessed by any other press, and turns out most beautiful work with great rapidity.

DAGUERREOTYPE.

J. A. WHIPPLE,

Has made the Art of Daguerreotyping his constant study and practice since its very first discovery, and he tenders his services to the public, assuring them that it is now so improved that

THE BEST LIKENESSES CAN BE PRODUCED.

He has successfully applied steam power to the preparation of the plates, which enables him to make family groups on the largest plates as perfect as the ordinary sizes. He has just secured Letters Patent for a process for making Daguerreotypes IN THE STYLE OF CRAYON DRAWINGS, thereby entirely removing the set and stiff look to which the usual Daguerreotype is liable.

His Exhibition Room is open to the public, and all are invited to call and examine specimens. In his collection, he has one large plate, GOV. BRIGGS AND HIS COUNCIL, on another Mayor Quincy and Board of Aldermen, beside many family groups, and an excellent DAGUERREOTYPE OF POWERS' GREEK SLAVE. Also, many of our best and most distinguished citizens.

Perfect likenesses are taken of the youngest children.

IMPROVED FIRE PROOF SAFES.

These well known Safes, constantly on hand, and manufactured to order, are warranted equal to any now manufactured in the United States; a fact amply proved by certificates and testimonials, in possession of the subscriber. They are furnished with the most approved Locks now in general use; and also, when desired, with "Yale's Celebrated Gun-Cotton and Powder Proof Locks," which have never yet been opened without the proper key. An instance is known where one of them successfully resisted four attempts upon it with gun powder without the slightest injury to the Lock whatever.

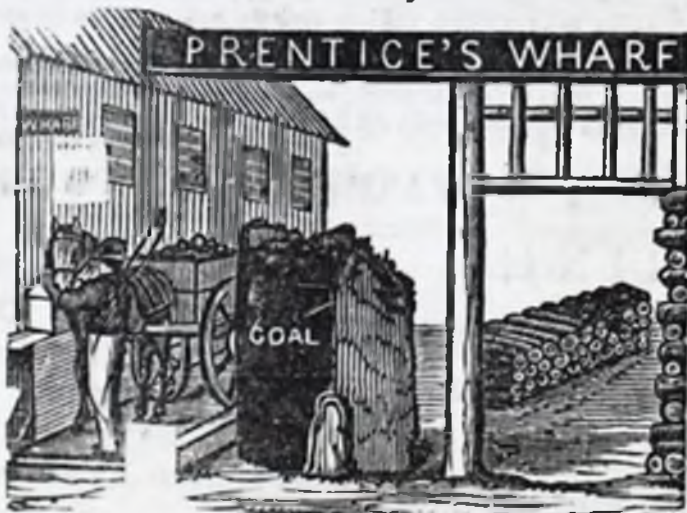

In connection with the above will be manufactured to order, BANK and STORE VAULTS, IRON DOORS, SHUTTERS, SASHES, FENCE, BALUSTRADES, RAILINGS, WINDOW GUARDS, and every description of work usually furnished by manufactories of this kind. Door and BANK Locks from \$12 to \$200.

JOSEPH L. ROSS,

PRACTICAL MANUFACTURER OF

DESKS AND CHAIRS FOR SCHOOLS.

Mr. R. has furnished the city with a large supply of these articles; and is now engaged in executing further contracts for the City Schools, as well as for those in the vicinity of Boston, and in other sections of the Union.

In the manufacture of DESKS and CHAIRS, he has introduced all the improvements that time, practical observation of Teachers and other scientific gentlemen, interested in the matter, have suggested; consequently, he has great confidence in appealing to School Committees, and all others that are, or may be in want of this kind of furniture, for their patronage, assuring them that their orders shall be

faithfully and promptly executed. It may also be observed that by the aid of ingenious steam-power machinery, skillful workmen, and choice seasoned stock, he is enabled to execute the work more expeditiously, cheaper, and better than can be procured elsewhere.

The legs of the Desk and Seat are Iron, of a classical design, firmly screwed on to the wood, and both articles then are to be permanently screwed to the floor. By a reference to the engravings, their simplicity, strength and adaptation to the purposes intended, is so obvious, that no farther explanation seems requisite; they have given entire satisfaction wherever they have been used.

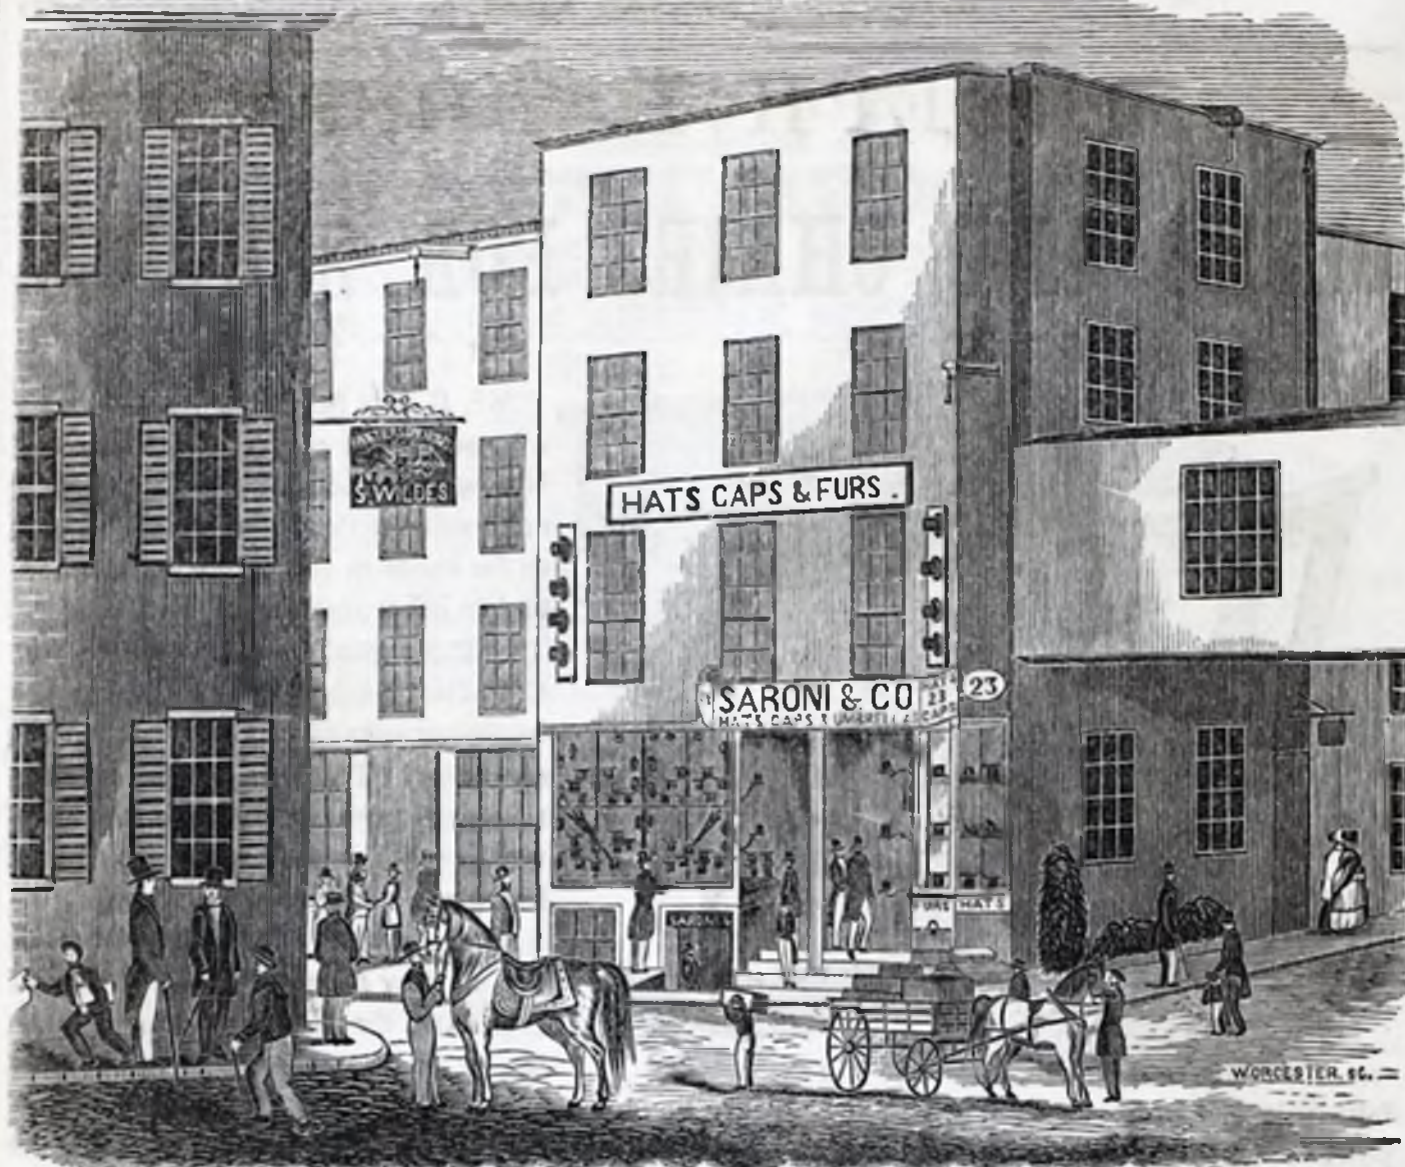

All communications in relation to CHAIRS, DESKS, TABLES, BOOK CASES, or other Furniture for School Rooms, please to direct to JOSEPH L. ROSS, at his

Manufactory, corner of Ivers and Hawkins Streets, Boston.

The article above named, may be seen at the Manufactory, in progress of completion.

N. B. Particular attention will be given to the arrangement of the School Desks with seats, and for permanently fixing the same when desired.

THE BOSTON SCHOOL VENTILATING STOVE.

DR. CLARK'S PATENT.

This Stove was constructed for the express purpose of thoroughly ventilating, as well as warming SCHOOL ROOMS, DWELLINGS, HALLS, CHURCHES, STORES, RAILROAD CARS, &c., with fresh healthful air, perfectly free from any red hot iron heat. The principal and general arrangement of this Stove has proved to be perfect for the above purposes. There are five sizes of these stoves, they are adapted to buildings of all classes; they possess the following advantages:

1. They are perfect portable furnaces, with distinct and capacious air chambers.
2. They insure an abundant supply of *warmed* and *fresh* air.
3. The *regulating top*, which is movable or fixed, as may be desired, gives a *perfect control* of the *amount and temperature* of the admitted air.
4. The outer cylinder is never hot enough to burn the persons or clothing of those who come in contact with it.

5. The Railroad Stove is very compact, and will occupy the space of only *one* seat in a Car.

6. They have been constructed with the utmost regard to efficiency, durability, and neatness of appearance.

These Stoves have been in extensive use in Schools, Railroad Cars, &c., for the past three years, and have fully accomplished the object for which they were designed, that of admitting a large supply of fresh healthful air, in temperature resembling that of a salubrious Summer's day. They are manufactured and for sale by C., R. & Co., who are also extensively engaged in the manufacture of CHILSON'S PATENT AIR-WARMING AND VENTILATING FURNACES.

Also, five sizes of a new and very superior PORTABLE VENTILATING FURNACE which is completely adapted for Warming and Ventilating buildings, where it is not convenient to set the BRICK VENTILATING FURNACE.

Also, a splendid assortment of new and beautiful patterns of REGISTERS and HOT-AIR GRATES, square and round, finished in Iron, Brass, Bronze, and Silver Plate, with every thing completely adapted to the business of thoroughly warming and ventilating public or private buildings.

Also, a full assortment of the best kind of VENTILATORS and SMOKE BLOWERS.

C., R. & Co., will give their personal attention to warming and ventilating public or private buildings, in any part of the United States. Having had a thorough practical experience in the business, they trust they will be able to give entire satisfaction.

C., R. & Co., have opened a GRATE ROOM, where they offer a splendid assortment of

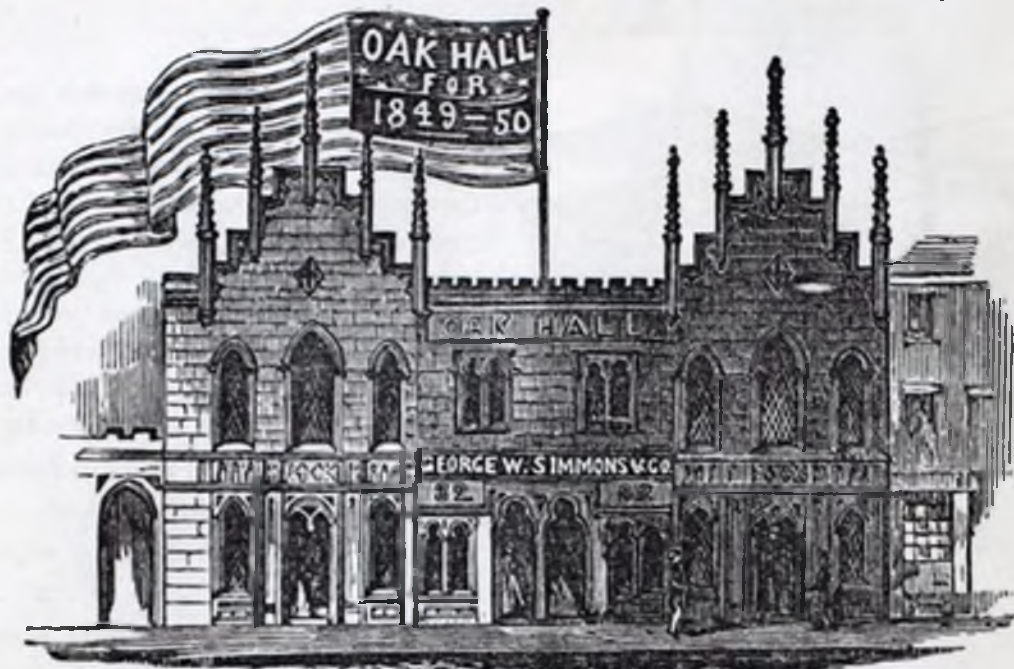

**PARLOR AND CHAMBER FRAME GRATES,
OF NEW AND ELEGANT PATTERNS,
OF HIGH AND LOW COST.**

Books published by the Inventor of the Furnace, with Cuts and Drawings, giving directions for Setting and Using the Furnace and School Stove; also directions for burning Coal, instructions for arranging Ventiducts, Ventilators, etc., for the Ventilation of all classes of buildings, ships, etc., with other useful matter.
